Objective: To secure a position as a Python Developer where I can utilize my skills in relational databases, the Django framework, Linux systems, as well as my knowledge in Linux and networking, to create innovative solutions and contribute to the success of the company.

Summary: An aspiring Python Developer with a background in law and experience as an Asian Account Manager in Reproductive Medicine. Proficient in relational databases, the Django framework, Linux systems, as well as knowledge in Linux and network administration. Familiar with TCP/IP, IP addressing, subnetting, DNS, and basic troubleshooting. Eager to learn and committed to continuously developing skills in Python programming, full-stack development, and cloud platforms.

Education:

- Bachelor's degree in Law, Dnepropetrovsk Humanitarian University

Work Experience:

- Junior Backend Developer at Enlil.com (May 2022 - Present)
 - Contributed to the development of web applications using Python and the Django framework.
 - Collaborated with the team to implement features and resolve issues.
 - Worked on backend development tasks, including database management, API integration, and asynchronous task processing.
 - Gained experience in working with Git, Celery, and Redis.

Technical Skills:

- Programming Languages: Python, SQL, CSS, HTML, JavaScript
- Web Development: Django, Django Rest Framework, Flask
- Databases: PostgreSQL, MySQL, SQLite
- Operating Systems: Linux
- Tools: Git, Celery, Redis

Projects:

- Developed a web application using Django, PostgreSQL, and Celery for asynchronous task processing.
- Built a RESTful API using the Django Rest Framework for a social media platform.

Skills and Abilities:

- Proficient in Python programming and web development using the Django framework.

- Experience with relational databases, including SQL query writing and management using PostgreSQL and MySQL.
- Familiarity with Linux systems and command-line interface.
- Working knowledge of front-end technologies such as HTML, CSS, and JavaScript.
- Familiarity with version control using Git.
- Strong problem-solving skills and ability to learn quickly.
- Excellent communication skills and ability to work collaboratively in a team.
- Intermediate level English speaking with a large vocabulary of IT words.

Interests:

- Full-stack web development
- Cloud computing platforms (Amazon Web Services, Google Cloud Platform)
- Data Science
- Machine Learning
